

# We are C&F: the IT company, which for 20 years has been providing technology-based solutions to complex business problems

**We help to overcome challenges with data issues along the whole data journey of the organization.**

**Part of C&F's DNA is our agile philosophy, which goes beyond just project methodologies and helps create dynamic and goal-oriented teams that successfully deliver real business value for our clients.**

We are a global team of passionate people who combine our business and process insights with our technical expertise to develop state-of-the-art business technology solutions.

We have a proven track record of successfully delivering large scale IT strategy and business transformation programs for some of the largest international Fortune 500 organizations.

Our validated methodologies and industry data models give us a competitive advantage over other consulting companies.

# We specialize in data and cloud solutions for the largest global companies

C&F has been providing solutions for global enterprises in regulated industries

## Industries

## Why C&F

### Scalability

Able to rapidly scale. At C&F we always choose together the option which best serves the business, and we start projects with minimum ramp-up time.

### Stability

Turnover at C&F is less than 7% which is far below industry standards. We care about our people being best in class experts and we take care of our people.

### Innovation

Our primary growth driver is pioneering Data Management and Advanced Analytics. We provide thought leadership to our Clients which gives them competitive advantage.

### Immediate Value Added

With C&F you get the best of two worlds: operational excellence, scalability and value added of a big consulting company and flexibility of a startup.

20+

More than two decades of **experience** in serving world's largest companies

60+

**Countries** all over the globe have businesses executing our programs and projects

400+
